

Concept Tag

No more unauthorized opened tags by magnetic detachers in the stores

This new Concept tag cant be opened with magnetic detachers. The tag has a mechanical lock that can only be opened by the concept detacher.

The concept tag solution works with your exiting EAS installation. (RF 8,2MHz and AM 58Khz)

#108244 Concept tag RF Ink

	TAG	PIN
Diameter	50 mm	50 mm
Height	16 mm	20 mm
Pin length		16 mm
Ink ampouls	3

Packed: Pins and tags are placed in the same box, different bags - 500 pcs / box, 100 pcs / bag

Concept Detacher

The Concept detacher is an electrical opener, which will open the tags in an efficient way.

Using the Concept detacher is easy. Just detach the tags, slide the tag part over the hole in the detacher. Manually remove the pin part and place it in the pin box. Easier handling for the staff.
